EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kieun Jenny Sung on 6/7/2007.

The application has been amended as follows:

Claim 3 Amended as follows:

3. (Examiner's Amendment) The liquid crystal display of claim 31, wherein the image data received by the data driver are first inputted into at least one of the data driving ICs and shifted to other data driving ICs.

End.

6/7/07

REASONS FOR ALLOWANCE

1. Claims 1-16 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The Applicant arguments filed on 1/30/2007 with respect to claims 1-16 are persuasive. As approved by the Applicant on 6/7/2007 Claim 3 has been amended to depend on claim 1 by Examiners Amendment. The IDS filed on 5/18/2007 has been considered. The feature of independent claims 1 and 13 directed towards allowable subject matter is the feature wherein the data driving ICs are supplied with a reference voltage, a ground voltage, and supply voltage as well as having voltage levels of the image data swing with respect to the reference voltage lower than the supply voltage. Moon generally teaches of said liquid crystal display having a low voltage differential signals or reduced swing differential signals, however, is silent as to said specific physical structure of said data driving IC comprising the specific assembly of supply voltages. As argued by the Applicant Moon specifically fails to teach of a data driving IC supplying said "reference voltage". Further, none of the other prior art of record suggests or teaches of the claimed limitation. Therefore said features of claims 1 and 13 in combination with the other limitations of the claims makes claims 1-16 allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
